

Short biography - Valentina Conti

Statistical analyst at AlmaLaurea Interuniversity Consortium since 2007. She collaborates in the implementation of the annual census surveys on the Employment status of graduates 1, 3 and 5 years after graduation. The Survey provides a broad portrait of graduates' job placement in the labour market, of the characteristics of the job they have found, including profession and salary, and of the use in work of the skills acquired while at university.

She got the Master degree in Statistics and Economics at Faculty of Statistics at University of Bologna.
